CONTENTS

JANUARY 1993 VOLUME 123 NUMBER 1

Obituary: Len Leyton 1916–1991. By Sir John Burnett 1

Evolutionary origins and natural functions of fructans – a climatological, biogeographic and mechanistic appraisal. By George A. F. Hendry 3

Evidence for the *de novo* synthesis of fructan by enzymes from higher plants: a reappraisal of the SST/FFT model. By Andrew John Cairns 15

The kinetic analysis of fructan biosynthesis in excised leaves of *Lolium temulentum* L. By I. M. Sims, R. Horgan and C. J. Pollock 25

Purification and properties of an invertase with sucrose: sucrose fructosyltransferase (SST) activity from the roots of *Cichorium intybus* L. By Wim Van Den Ende and André Van Laere 31

Yield advantage of a 'slow-' over a 'fast-' respiring population of *Lolium perenne* cv. S23 depends on plant density. By Edwin Kraus, Yildiz Aydemir, Sandra Duin, Chris Kollöffel and Hans Lambers 39

Novel effects of phytochrome status on reproductive shoot growth in *Triticum aestivum* L. By Jorge J. Casal 45

The *Azolla-Anabaena* symbiosis: endophyte continuity in the *Azolla* life-cycle is facilitated by epidermal trichomes. I. Partitioning of the endophytic *Anabaena* into developing sporocarps. By S. K. Perkins and G. A. Peters 53

The *Azolla–Anabaena* symbiosis: endophyte continuity in the *Azolla* life-cycle is facilitated by epidermal trichomes. II. Re-estabishment of the symbiosis following gametogenesis and embryogenesis. By G. A. Peters and S. K. Perkins 65

Growth dynamics and associated mycorrhizal fungi of little bluestem grass [*Schizachyrium scoparium* (Michx.) Nash] on burned and unburned sand prairies. By Shivcharn S. Dhillion and Roger C. Anderson 77

Mediation of competition between two colonizing VA mycorrhizal fungi by the host plant. By J. N. Pearson, L. K. Abbott and D. A. Jasper 93

Antifungal compounds from the roots of mycotrophic and non-mycotrophic plant species. By R. Paul Schreiner and Roger T. Koide 99

Mustards, mustard oils and mycorrhizas. By R. Paul Schreiner and Roger T. Koide 107

Factors affecting appressorium development in the vesicular–arbuscular mycorrhizal fungus *Glomus mosseae* (Nicol. & Gerd.) Gerd. & Trappe. By Manuela Giovannetti, Luciano Avio, Cristiana Sbrana and Anna Silvia Citernesi 115

Freeze-fracturing for low-temperature scanning electron microscopy of Hartig net in synthesized *Picea abies* – *Hebeloma crustuliniforme* and – *Tricholoma vaccinum* ectomycorrhizas. By Christoph Scheidegger and Ivano Brunner 123

Photosynthetic activity of Scots pine (*Pinus sylvestris* L.) needles during winter is affected by exposure to SO_2 and NO_2 during summer. By Martin Strand 133

The occurrence of SO_2-related foliar symptoms on Scots pine (*Pinus sylvestris* L.) in an open-air forest fumigation experiment. By P. J. A. Shaw, M. R. Holland, N. M. Darrall and A. R. Mcleod 143

Response of radish to multiple stresses. II. Influence of season and genotype on plant response to ozone and soil moisture deficit. By E. J. Pell, J. P. Sinn, N. Eckardt, C. Vinten Johansen, W. E. Winner and H. A. Mooney 153

Pollination-dependent female reproductive success in a self-compatible outcrosser, *Asphodelus aestivus* Brot. By Ayelet Schuster, Imanuel Noy-Meir, C. Clara Heyn and Amots Dafni 165

Variation within white clover (*Trifolium repens* L.) for phenotypic plasticity of morphological and yield related characters, induced by phosphorus supply. By J. R. Caradus, M. J. M. Hay, A. D. Mackay, V. J. Thomas, J. Dunlop, M. G. Lambert, A. L. Hart, J. Van Den Bosch and S. Wewala 175

Genecological studies of groundsel (*Senecio vulgaris* L.). IV. Rate of development in plants from different habitat types. By A. J. Theaker and D. Briggs 185

Plant macrofossils from the Lower Channel sediments at Marsworth, Buckinghamshire, UK. By Michael H. Field 195

Taphonomy of plant remains on floodplains of tundra rivers, present and Pleistocene. By R. G. West, R. Andrew and M. Pettit 203

Erratum 225

Instructions to Authors

FEBRUARY 1993 VOLUME 123 NUMBER 2

Transfusion tissue of pine needles as a site of retrieval of solutes from the transpiration stream. By M. J. Canny 227

The role of carbohydrate storage and redistribution in the source–sink relations of wheat and barley during grain filling – a review. By Hans Schnyder 233

Temperature effect on fructan oligomer contents and fructan-related enzyme activities in stems of wheat (*Triticum aestivum* L.) during grain filling. By Pierre Bancal and Eugène Triboï 247

Temperature effects on partitioning of ^{11}C assimilates in tall fescue (*Festuca arundinacea* Schreb.). By M. P. Prud'homme, F. Gastal, G. Belanger and J. Boucaud 255

Structure of fructopolysaccharide (asparagosin) from roots of asparagus (*Asparagus officinalis* L.). By Norio Shiomi 263

The uptake of glucose, fructose and sucrose into the lower epidermis of leaf discs of pea (*Pisum sativum* L. cv. Argenteum). By J. Aked and J. L. Hall 271

The uptake of glucose, fructose and sucrose into pea powdery mildew (*Erysiphe pisi* DC) from the apoplast of pea leaves. By J. Aked and J. L. Hall 277

Effect of powdery mildew infection on concentration of apoplastic sugars in pea leaves. By J. Aked and J. L. Hall 283

Effects of amino acids and sugars on zoospore taxis, encystment and cyst germination in *Pythium aphanidermatum* (Edson) Fitzp., *P. catenulatum* Matthews and *P. dissotocum* Drechs. By S. P. Donaldson and J. W. Deacon 289

The development of endomycorrhizal root systems. VIII. Effects of soil phosphorus and fungal colonization on the concentration of soluble carbohydrates in roots. By F. Amijee, D. P. Stribley and P. B. Tinker 297

Mineral nutrition in the tripartite interaction between *Frankia*, *Glomus* and *Alnus* at different soil phosphorus regimes. By D. K. Jha, G. D. Sharma and R. R. Mishra 307

Element localization in mycorrhizal roots of *Pteridium aquilinum* (L.) Kuhn collected from experimental plots treated with cadmium dust. By K. Turnau, I. Kottke and F. Oberwinkler 313

The effects of cadmium on ectomycorrhizal *Pinus sylvestris* L. By Jan V. Colpaert and Jozef A. van Assche 325

Genotype/nutrition interactions in the ectomycorrhizal fungus *Hebeloma cylindrosporum* Romagnesi. By G. Gay, R. Marmeisse, P. Fouillet, M. Bouletreau and J. C. Debaud 335

Comparison of sulphite oxidation mechanisms in three lichen species. By Zbigniew Miszalski and Ewa Niewiadomska 345

Interacting effects of ozone and water stress on the stomatal resistance of beech (*Fagus sylvatica* L.). By M. Pearson and T. A. Mansfield 351

Absorption of nitrogen dioxide by barley in open-top chambers. By E. S. Jensen and K. Pilegaard 359

Antioxidant response and winter hardiness in red spruce (*Picea rubens* Sarg.). By A. G. Doulis, A. Hausladen, B. Mondy, R. G. Alscher, B. I. Chevone, J. L. Hess and R. L. Weiser 365

Effects of phosphate and nitrogen application on death of the root cortex in spring wheat. By G. I. Elliott, A. D. Robson and L. K. Abbott 375

Variation in the chromosome number of *Parnassia palustris* L. in the British Isles. By R. J. Gornall and J. E. Wentworth 383

Reviews 389

MARCH 1993 VOLUME 123 NUMBER 3

The Tansley Fund of *The New Phytologist* Trust 395

Tansley Review No. 45.

Wall growth, protein excretion and morphogenesis in fungi. By Joseph G. H. Wessels 397

Effect of polyamine biosynthesis inhibitors on mycelial growth and concentrations of polyamines in *Ophiostoma ulmi* (Buism.) Nannf. By S. Biondi, I. Polgrossi and N. Bagni 415

Interactions between callus cultures of European beech, indigenous ascomycetes and derived fungal extracts. By S. J. Hendry, Lynne Boddy and D. Lonsdale 421

The fructosyltransferase of *Streptococcus salivarius*. By Nicholas A. Jacques 429

Purification and some properties of fructan: fructan fructosyl transferase from dandelion (*Taraxacum officinale* Weber). By M. Lüscher, M. Frehner and J. Nösberger 437

Fructan-hydrolyzing activities from *Lolium rigidum* Gaudin. By G. D. Bonnett and R. J. Simpson 443

Fructan exohydrolase from grasses. By Richard J. Simpson and Graham D. Bonnett 453

Fructan content of wheat seedlings (*Triticum aestivum* L.) under hypoxia and following re-aeration. By G. Albrecht, S. Kammerer, W. Praznik and E. M. Wiedenroth 471

Recovery after freezing in *Avena sativa* L., *Lolium perenne* L. and *L. multiflorum* Lam. By C. F. Eagles, J. Williams and D. V. Louis 477

Effects of soil temperature and nitrogen status on kinetics of $^{15}NO_3^-$ uptake by roots of field-grown *Agropyron desertorum* (Fisch. ex Link) Schult. By Hormoz Bassirirad, Martyn M. Caldwell and Carol Bilbrough 485

Cultivar responses to water stress in potato: effects of shoot and roots. By R. A. Jefferies 491

Hydraulic conductivity and anatomy along lateral roots of cacti: changes with soil water status. By Bingru Huang and Park S. Nobel 499

Survival of *Acer Pseudoplatanus* L. (sycamore) seedlings on metalliferous soils. By Andrew P. Turner and Nicholas M. Dickinson 509

Copper tolerance of *Acer pseudoplatanus* L. (sycamore) in tissue culture. By Andrew P. Turner and Nicholas M. Dickinson 523

Calcium amelioration of aluminium toxicity effects on root hair development in soybean [*Glycine max* (L.) Merr.]. By D. J. Brady, D. G. Edwards, C. J. Asher and F. P. C. Blamey 531

Ion distribution in relation to leaf age in *Leptochloa fusca* (L.) Kunth (Kallar grass) I. K, Na, Ca and Mg. By A. Saeed Bhatti, Sabine Steinert, G. Sarwar, Andrea Hilpert and W. Dieter Jeschke 539

Uptake of two chlorinated chemicals in conifer needles: reversibility and compartmental analysis. By Lukas Schreiber and Jörg Schönherr 547

Abscission in leaf and fruit explants of *Prunus persica* (L.) Batsch. By ZANCHIN C. BONGHI, G. CASADORO, A. RAMINA AND N. RASCIC 555

The development and patterning of stomata and glands in the epidermis of *Peperomia*. By T. SACHS AND N. NOVOPLANSKY 567

Promotion of germination of fynbos seeds by plant-derived smoke. By N. A. C. BROWN 575

Palaeoenvironmental investigations directly associated with a neolithic axe 'quarry' on Beinn Lawers, near Killin, Perthshire, Scotland. By RICHARD TIPPING, MARK EDMONDS AND ALISON SHERIDAN 585

Spatial diversity in the mid-Flandrian vegetation history of North Gill, North Yorkshire. By JUDITH TURNER, J. B. INNES AND I. G. SIMMONS 599

REVIEWS 649

APRIL 1993 VOLUME 123 NUMBER 4

Isolation and purification of intralamellar vesicles from *Lemna minor* L. chloroplasts. By M. PICHER, G. GRENIER, M. PURCELL, L. PROTEAU AND G. BEAUMONT 657

Effect of photoacclimation on the energy partitioning between cyclic and non-cyclic photophosphorylation. By RONNY HERZIG AND ZVY DUBINSKY 665

Calcification rate in *Emiliania huxleyi* Lohmann in response to light, nitrate and availability of inorganic carbon. By N. A. NIMER AND M. J. MERRETT 673

Dissolved inorganic carbon utilization in relation to calcite production in *Emiliania huxleyi* (Lohmann) Kamptner. By L. F. DONG, N. A. NIMER, E. OKUS AND M. J. MERRETT 679

Partial characterization of enzymes of nitrogen metabolism in *Chlorella autotrophica* Shihira & Krauss. By IFTIKHAR AHMAD AND JOHAN A. HELLEBUST 685

Partial characterization of enzymes of nitrogen metabolism in *Chlorella autotrophica* Shihira & Krauss. By IFTIKHAR AHMAD AND JOHAN A. HELLEBUST 685

Effects of nutrients on CO_2 assimilation by mosses on a sub-Antarctic island. By V. R. SMITH 693

Variability in the distribution of photoassimilates along leaves of temperate Gramineae. By J. H. H. WILLIAMS, B. E. COLLIS, C. J. POLLOCK, M. L. WILLIAMS AND J. F. FARRAR 699

Fructosyltransferase activities from *Lolium rigidum* Gaudin. By J. A. ST. JOHN, G. D. BONNETT AND R. J. SIMPSON 705

Purification and characterization of fructan : fructan fructosyltransferase from Jerusalem artichoke (*Helianthus tuberosus* L.) By M. LÜSCHER, M. FREHNER AND J. NÖSBERGER 717

Structure and quantity of fructan oligomers in oat (*Avena* spp.) By DAVID P. LIVINGSTON III, N. JERRY CHATTERTON AND PHILIP A. HARRISON 725

Variation in fructan content in the underground organs of *Vernonia herbacea* (Vell.) Rusby at different phenological phases. By M. A. MACHADO DE CARBALHO AND S. M. C. DIETRICH 735

Distribution of froctose polymers in herbaceous species of Asteraceae from the cerrado. By M. F. TERTULIANO AND R. C. L. FIGUEIREDO-RIBEIRO 741

Effects of ozone and carbon dioxide mixtures on two clones of white clover. By ALLEN S. HEAGLE, JOSEPH E. MILLER, DOROTHY E. SHERRILL AND JOHN O. RAWLINGS 751

Comparison of protein patterns in non-mycorrhizal and vesicular–arbuscular mycorrhizal roots of red clover. By J. ARINES, J. M. PALMA AND A. VILARIÑO 763

Magnetic resonance imaging of leaves. By JOHN S. VERES, GARY P. COFER AND G. ALLAN JOHNSON 769

Rates of water uptake into the mature root system of maize plants. By G. T. VARNEY AND M. J. CANNY 775

How to quantify differences in epicuticular wax morphology of *Picea abies* (L.) Karst. needles. By H. TUOMISTO AND S. NEUVONEN 787

Influence of temperature on seed germination and the nutritional requirements for embryo growth in *Arum maculatum* L. By H. W. Pritchard, J. A. Wood and K. R. Manger 801

The taxonomic and evolutionary significance of leaf longevity. By R. W. Rogers and H. T. Clifford 811

Reviews 823

Erratum 827
